Education

Bachelor of Technology (B.Tech) – Computer Science Engineering (AIML), *IPS Academy, Indore* 2028
Graduating: 2028 CGPA: 8.7 / 10

Senior Secondary (Class XII) PCM, *Board of Secondary Education, Madhya Pradesh* 2024
Percentage: 82%

Secondary (Class X), *Board of Secondary Education, Madhya Pradesh* 2022
Percentage: 88.2%

Professional Experience

Data Analysis Intern, *Aassay* May 2026 – Jul 2026
Indore

- My work involved analyzing project data to identify useful patterns and insights, organizing and documenting information, preparing structured documentation for the EverCraft project, supporting data-driven decision-making, and maintaining clear and accurate project records.

Skills

Programming & Querying :
Python, C++, HTML, CSS, SQL,Excel, PowerBI.

Frameworks and Library :
Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Flask,

Other Skills :
Object Oriented Programming , Database and management system , Problem Solving, Analytical Thinking, Data Analysis, Effective Communication.

Platforms :
Jupyter Notebook, Visual Studio Code, PyCharm.

Projects

Ai Finance Analytics , *Python, Flask, SQL, LLM API*

- Built an AI-powered finance analytics web app that converts plain-English questions into SQL queries, runs them on a database, and returns results with auto-generated charts and plain-language explanations.
- Designed a SQL validation layer that checks LLM-generated queries before execution, blocking unsafe statements to protect the database from injection and destructive operations.
- Structured the backend into modular components (query generation, validation, execution, charting, explanation) for maintainability and easy testing.

Student Performance Prediction , *Python, Flask, Scikit-Learn*

- Performed **data preprocessing and feature engineering** on student dataset including handling missing values, encoding categorical variables, and preparing training pipelines.
- Built an end-to-end ML pipeline to predict student exam performance, achieving **R^2 score of 0.87** on test data.
- Implemented **modular src architecture** with reusable components for **data ingestion, transformation, and model training.**
- Deployed prediction interface via **Flask web app** , tracked experiments using setup.py and versioned ML artifacts.

Awards & Certifications

Amazon ML Summer School , *Amazon*
Selected for Amazon ML Summer School 2026, among the top 3,000 participants across India from thousands of applicants.

Campus Young Turk by Naukri , *Naukri*
Achieved 97.24 Percentile and secured Rank 1098 in Naukri Campus Young Turks 2025. Showcasing exceptional skills and knowledge in a competitive environment
